Instructions

1. Cut all the layers of cardstock and Designer Series Paper as listed above.
2. Take the Petal Pink card base and lay out flat in the paper trimmer with the right hand side of the card flat to the top edge of the paper trimmer. Make a mark at 5cm (or 2" for imperial) from the top edge down the right hand side. Once you have made this mark, take the scoring blade and score from the centre score line to the 5cm (or 2") mark. Fold this over and reinforce with a bone folder.

3. Take the piece of Basic White for the card front and folding up the previously scored 'corner flap' place this piece of Basic White against the Petal Pink leaving about 2mm (or 1/16") on the top and right hand side, using a pencil make a mark just above where the corner flap fold crease is on each side of the Basic White piece. Take your paper trimmer and line up each of the marks in the cutting guide and cut. This should give you the two pieces needed for both the flap and the bottom piece for the front. Check that the Basic White smaller piece fits nicely on the flap piece, if not trim slightly. Take the larger piece and trim a small amount off the angled edge to fit nicely on the bottom piece of the card.
4. Take the piece of A Little Latte Designer Series Paper for the front of the card and place against the large piece of cut Basic White leaving a small gap of about 2mm (or 1/16") on the bottom, left and right sides, make a mark with a pencil just below the Basic White edge at about 2mm (or 1/16") on each top side. Line up each mark in the paper trimmer cutting guide and trim. This should give you a piece that fits nicely. You can adhere this down to the Basic White Piece and adhere this to the bottom of the card front. Set the remaining piece aside for another project.

5. Take the piece of Rose Gold Foil and cut diagonally making sure to line up in the paper trimmer cutting like the diagram shown to the right. Adhere this to the smaller piece of Basic White for the corner flap. If you need to trim the Basic White a little, use a paper trimmer or guillotine. Adhere this to the corner flap. Adhere the corner flap down to the card with Liquid Glue or I have used Stampin' Dimensionals to adhere to my card for a little bit of dimension.

6. Take the layer of Basic White for the inside of the card and stamp one of the coffee cups to the bottom right hand side in Calypso Coral. Stamp the inside latte with Crumb Cake and Pecan Pie ink. Colour the cup with a mixture of Calypso Coral and Petal Pink Stampin' Blends. Stamp some coffee 'splat' images in Pecan Pie ink and then spritz some ink from a Calypso Coral Stampin' Blend on the background. I have also added some Wink of Stella to my latte and then added this to a layer of Petal Pink before adding to the inside of my card.
7. To begin the decorations for the front of the card die cut the following; a coffee pot exterior in Window Sheet, the handle and lid in Rose Gold Foil and the coffee for the inside in Early Espresso. Two coffee cups in Calypso Coral and two small pieces that make the coffee inside the cups in Pecan Pie. You will also need to stamp two small lots of coffee beans and a large cluster of coffee beans and colour these with a selection of brown Stampin' Blends and die cut these out with the corresponding dies.
8. Adhere the coffee pot together using Mini Glue Dots, only adhering a glue dot to the coffee on the left hand side where the glue dot will not be seen. Add some light Calypso Coral blending using a Blending Brush with some Calypso Coralink to the coffee cups and adhere the Pecan Pie coffee pieces to the coffee cups. Set these pieces aside for now.
9. Stamp the sentiment in Early Espresso on a scrap of Crumb Cake. Trim this down and then taking a scrap piece of More Dazzle Specialty Paper trim it to be approximately the same size as the sentiment strip. Using some Tear N' Tape, adhere this to the sentiment strip to peek underneath. Set this sentiment aside.
10. Take a length of the Natural Polka Dot Trim and cut to approximately 10cm or 4", gently pull apart the threads in the trim to individual threads. Tear a strip of Tear N' Tape and adhere to the card where you can see the ribbon adhered on the sample. Use this to adhere the threads to the card. Alternatively you could use Stampin' Seal +.

11. Adhere the coffee pot to the card where shown with a mixture of Stampin' Dimensionals and Mini Glue Dots as there are varying heights where this is adhered due to the dimension on the fold over corner flap. Adhere the sentiment over the top with Tear N' Tape and then adhere the coffee cups with Stampin' Dimensionals and Glue Dots. Adhere the coffee beans with Liquid Glue where shown.
12. Spritz the card with some Wink of Stella and embellish the card with the Adhesive Backed Swirl Dots.
