# Instructions

1. Cut and score all the layers listed above and score the card base as stated. Cut and prep the pop up mechanism piece and score. Set aside.
2. Adhere the large piece of Designer Series Paper to the large layer of Old Olive Cardstock and adhere the two large strips of Designer Series Paper to the coordinating Old Olive cardstock pieces. Open the card base out flat and adhere all these pieces to the matching panels on the card. Spritz the panels with a Mossy Meadow Stampin' Write Marker.
3. Take the pop up mechanism and reinforce the score lines with a bone folder. Fold the two ends of the mechanism into the middle. Make sure there is no overlap on the mechanism (if there is, give it a slight trim). Add adhesive to the two end flaps when they are folded into the middle. Flip this piece over and align the middle score line with the score line on the card base between the middle small panel and large panel. Set this aside and allow it to dry.
4. On each of the Basic White squares adhere the coordinating layers of Designer Series Paper squares. I have listed the sizes of the die cut squares in case you do not have the Stylish Shape Dies.
5. Take the two smaller squares and line them up on the front card panel as diamonds having the ends lined up in the middle of the card with equal spaces at the top and bottom (see card picture for placement). Adhere these 'diamonds' by adding adhesive only on the left side. Once the small diamonds are adhered, take the large diamond and place it on the pop up mechanism on the inside, only adding adhesive to the part that will be adhered to the mechanism. Allow these to dry.
6. Die cut a variety of the greenery images from the Seasons of Green & Gold Designer Series Paper and the Graceful Greenery Vellum. I have also die cut one of the decorative greenery dies from the white vellum.
7. Tie a bow from the Cream Woven Ribbon and adhere with a Glue Dot to the bottom diamond panel.
8. Stamp the sentiment in Versamark on some Mossy Meadow Cardstock and heat emboss in white. Fussy cut out the 'Christmas' and trim the 'Merry' into a strip.
9. Arrange the greenery pieces on all the diamonds until you are happy with the layering and placement. Use a mixture of Liquid Glue and Glue Dots to adhere these pieces.
10. Adhere the sentiment over the top of the layered pieces on the bottom diamond with some Glue Dots.
11. Add some Wink of Stella to the finished card and embellish with some Gold Sequins.

12. To decorate the white panel that will go on the back of the card, add some light blending to the bottom left hand corner with some Old Olive ink. Spritz some Mossy Meadow Stampin' Write Marker over this piece and then add some leftover die cut greenery where shown. Add a small strip of the Designer Paper to the bottom if desired. Add a sentiment stamped in Mossy Meadow and embellish with some die gold 'berries'. Spritz some Wink of Stella to this piece.
13. Add this layer to the leftover layer of Old Olive and adhere to the back side of the card.
